

Supporting our hospital and clinics since 1956

“We exist to improve our hospital and clinics through service, education and special projects.”

Who We Are

Friends of Sauk Prairie Healthcare (SPH) is a community-based supporter group dedicated to strengthening Sauk Prairie Healthcare through service, education, and special projects.

For 70 years, Friends supporters have helped fund equipment, programs, and resources that support patients, staff, and volunteers across our hospital and clinics. Our work continues today to support the mission of SPH, “Extraordinary healthcare from the heart- one person at a time”.

Why Friends Matter

Support from Friends of SPH helps make possible:

- Equipment and resources that enhance patient care
- Education and training for staff and volunteers
- Volunteer programs that support patients, visitors, and care teams
- Community traditions such as the Gift Shop and Love Lights Tree

Every contribution, large or small, helps us respond to real needs within Sauk Prairie Healthcare.

How to Support Friends of SPH

Friends' supporters choose how they support us. Many choose to support Friends of SPH financially only. Others volunteer when and if it fits their lives. There is no obligation beyond what feels right for you.
